The Arizona Airports Association (AzAA) was formed in 1979. AzAA celebrates over 40 years of bringing together representatives of public and private airports, along with others interested in the general benefit of aviation, to provide information, expertise, and support to professionals in the State of Arizona's aviation industry. Further, the Association works to foster public recognition of airports and the airport executive profession, and to assist in the future development of air transportation in Arizona. www.azairports.org.
